3. Condition 10 of the permit be amended to read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing

evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

ORDER ALLOWING TEMPORARY SUSPENSION OF BLIND POINT
CONDITION IN WATER RIGHT PERMITS NOS. 16477-16483
AND TEMPORARY MODIFICATION OF WATER QUALITY OBJECTIVE
A-2, STATE BOARD RESOLUTION 73-16

BY THE BOARD:

1. The Department of Water Resources and the Department of Fish and Game have requested the State Water Resources Control Board to temporarily (a) suspend condition 15 of Decision 1275, as amended by Decision 1291, which is incorporated in the above-numbered permits issued to the Department of Water Resources and (b) modify objective A-2 of Resolution 73-16 (Water Quality Control Plan Supplementing State Water Quality Control Policy for Sacramento-San Joaquin Delta), respectively.

2. Notice of tentative staff recommendation in regard to the requests has been circulated to interested parties.

3. The State Water Resources Control Board has reviewed the information pertinent to the requests submitted by the Department of Water Resources and the Department of Fish and Game.

4. The purpose of these requests is to conduct tests as part of a cooperative study to evaluate factors controlling the survival of young striped bass.

NOW, THEREFORE, the State Water Resources Control Board finds that temporary suspension of condition 15 and temporary modification of Water Quality Objective A-2 in State Board Resolution 73-16 for the year 1975 is in the public interest in that the information to be acquired and analyzed by the Department of Fish and Game may contribute to a fuller understanding of the Bay-Delta Ecosystem;

NOW THEREFORE, IT IS ORDERED that:

1. Condition 15 is suspended for the year 1975.
2. Water Quality Objective A-2, Resolution 73-16 is modified for the year 1975, by moving the Water Quality Objective checkpoint from Antioch to Jersey Point.
3. The Department of Water Resources will be responsible for notification, in coordination with the Department of Fish and Game, of all persons diverting water from the Bay-Delta System who may be affected by the testing program at least 15 days prior to initiation of the testing.
4. In no event shall the temporary suspension or modification, or testing, authorized by this order cause a violation of Water Quality Objective A-1, Resolution 73-16, or other applicable water quality objectives.

5. This Board reserves the right, for good cause, including but not limited to failure of the Department of Water Resources to notify diverters as provided in paragraph 3 next above, to terminate this temporary suspension of condition 15 and modification of objective A-2, Resolution 73-16, and the authority to so terminate is delegated to the Executive Officer, State Water Resources Control Board.
